

Welcome back! Our faculty and staff are ready for the new semester and looking forward to preparing our students for tremendous academic strides yet this school year.

We are proud of the recent Momentum Awards our high school, middle school, and district received from the State Board of Education in recognition of exceeding expectations for student growth for the 2017-18 school year. This is the third year we have received this affirmation of our student growth trend.

Please remind your children to practice good handwashing and hygiene to avoid illness during the coming months. The second semester has great learning opportunities in store for our students, and state testing is on the horizon. Regular attendance in school will ensure your children reap the benefits of the academic programs we have planned and prepare them for high achievement during testing this spring. We want your children to be healthy and focused in order to fully realize their scholastic potential.

Along with extending our student growth and providing multiple avenues for academic achievement, it is imperative to focus on creating a sense of “we” throughout the district and community. All stakeholders must have a voice, and I will continue to create venues to converse, listen and share ideas to support our students, parents, teachers and staff, and the board of education. I take great pride in serving our children, parents/guardians, and school and community families. Please feel free to reach out to me at **419-625-0484** with any questions, concerns or ideas you have, or if you need assistance. I am excited to provide additional settings to meet more of our families and community members, and will work diligently to enhance the “we” in “We are Perkins!”
